Head Product Design - Full Time (Neurocycle)

Remote | January 2024 - Present

- Lead the end-to-end redesign, design system architecture, and new branding for a B2C iOS, Android, and responsive web app in the mental health space, integrating neuroscientific research to modernize the user experience.
- Build and optimize cross-functional collaboration processes between product, design, and engineering teams to improve communication, streamline workflows, and accelerate execution—ultimately reducing time-to-market by 35%.
- Increase user retention by 22% by redesigning the onboarding flow and key legacy UI components to reduce confusion around post-trial charges, addressing user complaints and improving trust during early app usage.
- Conduct user research (surveys, behavioral analysis) to address critical UX pain points, decreasing user error by 40% and improving App Store ratings from 3.2 to 4.0 and Google Play from 3.0 to 3.8.

UX/UI Designer - Contract Designer (Despark)

Remote | April 2023 - December 2023

- Support on a user-centered B2C web3 desktop website that leverages SAAS to incentivize users with cryptocurrency rewards.
- Implement accessibility best practices to enhance the user experience and ensure compliance with WCAG 2.2 standards, resulting in an inclusive design that accommodates users with diverse needs.
- Guide the schedule feature, which increases user productivity by 30% and reduces user errors by 20%, allowing users to efficiently manage their mission activities while ensuring consistency with the existing design system.
- Streamline a custom user flow to simplify the process of joining missions, improving user experience by 20%.

UX/UI Designer - Contract Designer (Splyt)

Remote | April 2022 - April 2023

- Co-lead and collaborate with designers, engineers, and stakeholders in developing an MVP for a B2C mobile application enabling P2P payments, with outreach to over 6 thousand people in NYC and more than 30 thousand nationwide through user research, user stories, and wireframes.
- Motivate cross-functional teams to harmonize design solutions with business objectives, leading to a 30% decrease in user support requests by introducing self-explanatory UI elements and simplifying the user payment splitting processes.
- Establish and maintain a design system and style guide, ensuring consistency and brand alignment across the application while also providing design assets and guidelines for future development and updates.
- Initiate development and client handoff files, annotating necessary behaviors, buttons or components actions, or state changes.

Technical Specialist - Apple

Edison, NJ | November 2019 - April 2022

- Perform usability assessments on Apple products and services, identifying potential technical obstacles to an optimal user experience and recommending innovative solutions prioritizing user satisfaction and usability.
- Collaborate with cross-functional teams to troubleshoot and resolve technical issues that impact user satisfaction, offering insights and solutions to maintain a seamless and user-friendly ecosystem for Apple customers.

EDUCATION

Rutgers University, Bachelor's Degree in ITI and Psychology

SKILLS

Research: Design Research, Competitive Analysis, Surveys, User Stories, User Flows, Personas, Site Mapping, Information Architecture, Usability Testing, User Interviews, Focus Groups, Card Sorting, User Behavior Analysis, Survey Design, Persona Validation, Accessibility Testing, Market Research, Qualitative and Quantitative Research Methods, Data Analysis

Design: User Interface Design, User Experience Design, Mobile Application Design, Web Design, Design Thinking, Interaction Design, Design Composition, Style Guide, Typography, Wireframes, Ideation, Prototypes, Mockup, Dark Mode Design, Conversational UI / Voice UX, Print Design, Responsive Design, User-Centered Design Principles, Accessibility Design, Design System, Cross-Platform Design, Branding, Iteration, Sketching

Toolkit: Figma, Framer, Miro, Midjourney, Adobe Creative Cloud, Notion AI / ChatGPT / Claude / Gemini, Final Cut Pro, Google Suites, Notion, Zoom, Microsoft Office

Soft Skills: Leadership, Strategic Thinking, Change Management, AI Literacy, Agile Mindset, Scrum Framework, Ethical Design Mindset, Empathy, Cross-Disciplinary Communication, Attention to Detail, Curiosity, Storytelling, Collaboration, Adaptability, Critical Thinking, Problem-Solving, Creativity, High Motivation, Presentation, Client Management, Time Management
